Amharic ()

Marathi ()

Amharic text (represented by dots) and Marathi text (represented by dots) are arranged in a grid-like structure. The Amharic text is on the left and the Marathi text is on the right. The text is mostly obscured by dots, but a small red 'n.' is visible in the lower-left quadrant.

Amharic ()

Marathi ()

Amharic text (represented by red dots) and Marathi text (represented by black dots) are scattered across the page, appearing to be bleed-through from the reverse side of the paper. The text is fragmented and difficult to decipher due to the low resolution and noise.
